UBA Recommendation –
Attestation of conformity for Evaluation Criteria
System 1+ with external monitoring

Remarks:

The attestation of conformity is issued under the precondition that the starting materials used to manufacture the products and/or their composition and/or components, including their manufacturers and supply chain, have been disclosed in full and the product does not contain any further substances. This document shall be invalid in cases of changes to the composition of the product or the processing conditions that have not been agreed upon with the certification body, failure to meet the conformity requirements or termination of the 1+ system monitoring programme by the certification body and manufacturer.

The findings of our tests and the evaluations apply for the test objects examined and the provisions of the law applicable at the time of testing. Without our express written approval, it is only permitted to publish or reproduce this document in full and unedited.

The validity of the certificate will be ended, if the product falls into the scope of CE-marking.

Where reference is made in this certificate to any regulations, publications, standards or other documents, it shall be construed as a reference to such publication in the form of which it is in force at the date of this certificate.

The manufacturer is responsible for the quality and continuous quality control of the product. In granting this certificate, Eurofins Expert Services Oy does not accept responsibility to any person or body for any loss or damage incurred in respect of personal injury arising as direct or indirect result of the use of this product.
